# WHERE ARE YOU STRUGGLING MOST?

### AI & TECH STRATEGY

- Unclear where to begin with AI, robotics or automation
- Tech investments not delivering ROI
- Difficulty integrating AI into real workflows
- Systems built in silos, disconnected from business strategy

### PRODUCT & USER EXPERIENCE

- Low adoption of internal or customer tools
- User feedback rarely translated into product improvements
- Resources focused on low-impact features
- Software and systems feel clunky

### OPERATIONAL EFFICIENCY

- Inefficient processes impacting productivity, workflows & quality
- Disconnected systems creating duplicate or manual work
- Supply chain challenges driving up costs
- Pressure to improve performance with limited resources

### PROCESS & TECHNOLOGY INTEGRATION

- Lack of a clear digital strategy to adapt and scale
- Unclear metrics for success or ROI
- Lack of clear governance for tech initiatives
- Limited internal capability to maintain or scale automation
